

FOR IMMEDIATE RELEASE

PERKINS PRECISION DEVELOPMENTS, LLC

Perkins Precision Expanded Capabilities Enable Growth

Longmont, CO, July 10, 2014 – Perkins Precision Developments (PPD) is pleased to announce the hiring of Emily Kubacki as Director of Sales and Marketing. Ms. Kubacki will be responsible for technical sales and account management for all international and U.S. based customers of the Colorado based manufacturing facility.

Ms. Kubacki brings to PPD over 20 years of experience in the engineering, selling and marketing of optical components. She is a graduate of the University of Rochester School of Engineering and has lived in Colorado with her husband and three children since 2006.

Says Jay Perkins, owner and CEO: “Emily will be a great asset to PPD and we are very excited that she has joined our team. With her experience and skills, we will be able to better serve our existing customers as well as reach out to new ones. Emily brings both leadership and technical application knowledge that we have been looking for.”

PPD recently added ion-beam-sputtering (IBS) coating capability to its 7,000 square feet production facility in order to develop new markets and increase business with its current customer base. In order to support this growth, Perkins is also in the process of hiring additional technicians in the coating, quality control and fabrication departments.

About Perkins Precision:

PPD provides custom laser optics and optical substrate fabrication using advanced manufacturing techniques and with an emphasis on consistency, quality and customer service. Target applications include semi-conductor test and inspection equipment, high energy laser systems, material processing, medical instrumentation, telecommunications, aerospace, security and defense.
